Annually, one of the landmark events for HME providers is the release of the Office of Inspector General’s work plan. A careful review of the work plan can give HME providers a significant head-start in identifying the areas to focus internal audit and compliance resources for this year. By utilizing the information contained in the work plan, providers can update their risk profile and begin training employees to prepare for pending investigations and audits. This session will focus on the elements of the 2011 work plan and the steps providers can take in response to the OIG’s guidance.

Objectives:

- Attendees will learn the provisions of the 2011 OIG work plan relevant to HME providers;
