ACU-SERVE ACQUIRES ECS BILLING & CONSULTING NORTH

Bringing the company one step closer to being the only sole source solution that covers every aspect of service in the HME industry

(Akron, Ohio) August 17, 2022 – Announced today, ACU-Serve Corp. has acquired ECS Billing & Consulting North. ECS was based in Tiffin, Ohio, and founded by Sarah Hanna, a well-known industry veteran who will assume a role as V.P. of Consulting Services at ACU-Serve Corp.

“I am excited about ECS becoming part of the ACU-Serve team. ACU-Serve and ECS share business and client values, keeping client service as our number one priority,” Hanna shared. “This move provides not only our current client base, but all healthcare providers, access to a full suite of services and technology that sets us apart in the healthcare arena and makes ACU-Serve the elite provider of revenue cycle, consulting, and training services.”

The acquisition provides ACU-Serve with over 30 additional U.S.-based employees, advanced consulting services, and strong offshore resources, solidifying ACU-Serve as the largest and most complete HME Revenue Cycle Management Solution Provider in the country.

“Staffing shortages continue to be a crisis across this country and having the opportunity to add more staff to our team in addition to bringing in Sarah Hanna to build out our consulting division is very exciting,” said Jim Knight, CEO of ACU-Serve. “We look forward to continuing to support the HME Industry, various state, regional and national associations even more with our rapidly growing speaker and consultant network.”
